

POLICE ARE STILL AT SEA

No Definite Results from Prisoner Thompson's Partial Confession.

EDWARDS IS BACK

Boarder at the Bartholin Home Has Not Much To Say.

ARE AFTER CLUES

(Special By Scripps-McLae.) Chicago, Aug. 15.—The police are still groping in the dark over the solving of the Bartholin murder mystery. The police officials in charge of the case differ, Inspector Hunt having one theory and the Chief another. Thus far the key to the whole situation seems to be Thompson.

Ready to Confess
Oscar Thompson, the boarder, who has partially confessed his knowledge of the affair at times seems ready to divulge all he knows. He has been closely questioned several times but has refused to give any information beyond the fact that he knows he was with the wagon the night that Miss Mitchell was murdered.

Milton Edwards
The statement of Milton Edwards, who has returned from Denver to tell all he knows of the affair has arrived and has told Chief O'Neil all the facts. His evidence is very disappointing.

RUMORED RETIREMENT OF PRESIDENT SCHWAB

James Gayley to Succeed the Present Head of the Billion-Dollar Steel Trust.

New York, Aug. 15.—With the home-coming of J. Pierpont Morgan next week the retirement of Charles M. Schwab, president of the United States Steel Corporation, and the election of James Gayley, the present first vice president, as his successor, will be taken into immediate consideration.

Mr. Schwab's ill health is one of the reasons that have brought the management of the billion-dollar trust to the view that a change should be made, but there are other reasons. These have been known ever since he was made the president of the corporation in accordance with the bargain entered into with Andrew Carnegie. Since that day he has been a figurehead.

TWO HUGE GAS MAINS EXPLODE

Workman is Blown Twenty Feet and May Lose Sight.

Marion, Ind., Aug. 15.—Fred Harris, an employee of the American Gas and Oil Company, was blown twenty feet by a gas explosion on a pipe line. It is feared he has permanently lost his sight. Workmen were heating a large eight-inch main in order to bend it when the main exploded.

The pumping station owned by the Indiana Pulp and Paper Company was blown to pieces by an explosion. Water had accumulated in the pipes and had backed up into the pumping station with such force that a nipple on a gas pipe was broken, allowing the gas to escape. It was ignited by lights in the building and exploded with great force. No one was about the building at the time and no loss of life resulted. The mammoth paper plant of the company is closed on account of the explosion of gas as the result of the explosion.

SALOONIST KILLS POLICEMAN

Trouble in an Alley Leads to Fatal Result.

Galesburg, Ill., Aug. 15.—George Allen, a member of the police force, was shot and instantly killed in an alley by Henry McCune, a saloonkeeper, while McCune received two shots in the left shoulder. Allen at the time was patrolling the alley. As the two men were alone what occurred is not clear. McCune, it is said, was knocked down by the policeman for some interference as the officer was after a couple in the alley. McCune ran into his saloon and snatched up his revolver. Five shots were fired. McCune is now in jail. Allen was one of the most popular men on the force.

TWEED RECEIVER PASSES AWAY

Man Who Saved 93 Per Cent for Bank Depositors Dies Suddenly.

Balston, N. Y., Aug. 15.—Frank Thompson, a millionaire and retired lawyer, died very suddenly at his home here, aged 59. He was appointed receiver of the Abington Square Bank in New York, which was wrecked by the Tweed ring. He successfully conducted the bank and paid 93 per cent of the deposits. Thompson's estate is estimated at a million and a half.

AUTO. TRADE IS ON THE INCREASE

One Dealer Alone Buys \$1,000,000 Worth of French Machines.

New York City, Aug. 15.—(Special.)—That the "boom" period of the automobile has arrived is indicated by the fact that \$1,000,000 worth of the French machines has just been contracted for by a firm in this city. News of this stupendous deal, the largest ever known, reached here today with Carlton R. Mabley of this city on the Kaiserin Maria Theresa. Mr. Mabley is interested in a firm which makes a specialty of French vehicles. He returned from a two months' honeymoon trip in Europe, most of which time was spent in France, and it was there he made his contracts. The purchase calls for delivery within one year of 300 order machines, ranging in value from \$4,000 to \$12,000.

A BIG LOSS BY DRY GOODS FIRE

Hamilton, Ohio, Has a Most Disastrous Blaze During Last Night.

WILL REACH \$25,000

Origin Is Still a Mystery, With No Tangible Clue.

NARROW ESCAPES

(Special By Scripps-McLae.) Hamilton, O., Aug. 15.—The large dry goods store of Howell & Sons, the largest concern of its kind in this section of the state, burned last night to the ground.

Loss Is Large
The loss on the building and contents is estimated at \$200,000 which is slightly covered by insurance. Several of the adjoining buildings were badly burned and suffered a loss of fifty thousand dollars.

Much Mystery
There is much mystery as to the origin of the fire, as no one had been known to be near the building for some time previous to the starting of the flames.

BANKS MUST PAY TAX ON PROFITS

Sum of \$300,000 Due the Government on the Deficit War Taxes.

Washington, D. C., Aug. 15.—(Special.)—All national banks will now be required to pay the war revenue tax on their undivided profits, and the commissioner of internal revenue today ordered that immediate steps be taken to collect this tax. It amounts in the aggregate to \$200,000 and affects many national banks, trust companies, and savings banks.

Cover Funds
It was claimed by the commissioner that some banks were covering funds into the profit and loss, or undivided profits accounts, so as to avoid the payment of the tax. Commissioner Yerkes took up the question and decided that the tax should be collected on these funds. This occurred on January last, and while preparations were being made to collect the tax James B. Forgan of Chicago, president of the First National bank, representing the other national bankers, appealed to the commissioner to suspend the collection until a decision in a test case could be had.

President Forgan also asked the suspension on the ground that the policy of the government in this respect had been changed several times so as to make it difficult for the banks to know what to do.

This delay was granted pending the decision of the United States circuit court of the southern district of New York in which the Leather Manufacturers' National bank is located.

Favors Government
This decision was in favor of the government and even if the banks decide to take their case to the circuit court of appeals the tax must be paid. The taxes, which will be collected under the decision of the court and the order of Commissioner Yerkes, cover the year, ending June 30 last. The war revenue act has been repealed, and since July 1 no war taxes have been collected from the banks.

TELLS OF FOREIGN LIFE IN CITIES

Rev. R. C. Denison Writes Interestingly from Cork of Customs Abroad.

Two very interesting letters were read at the Thursday evening prayer meeting of the First Congregational church, from the pastor and his wife. Mr. Denison wrote from Cork, Ireland, and Mrs. Denison from Boston. The letter from Mr. Denison was largely taken up with a general description of Cork. The city is in a very lamentable condition, swarming with a poverty stricken population, and it would seem that there is no possible hope of bettering their condition unless the Irish land owners should lead the movement. The pastor's attention was especially attracted by the number of saloons in the city and the fact that they are universally tended by bar maids. In the very midst of one of the worst of these districts where filth and uncleanness abound, is erected the beautiful statue to Father Mathew, the Irish apostle of temperance, in contrast to its surroundings.

From Cork Mr. Denison purposed to go direct to Limerick, thence to Dublin, and from that city he hoped to return once more to an English atmosphere where the customs, the people, and the general condition of the residents were more nearly like that of America.

The reported purchase of the United Dressed Beef company by Nelson, Morris & Co., is said to be a part of a packer's combine to absorb small concerns.

CASTRO NEARS END OF POWER

At Present He Only Holds Caracas, and Is Completely Hemmed In.

IS READY TO FLEE

The U. S. Gunboat Marietta Will Help Him To Escape.

TOWN SURROUNDED

(Special By Scripps-McLae.) Washington, D. C., Aug. 15.—The belief is general here that the end of the Castro administration in Venezuela seems certain and that it is only a matter of time before he will be forced to flee the country from the revolutionary forces.

Only Holds Caracas
President Castro and his little army only holds Caracas and it seems most probable that he will be forced to surrender this before many days are over.

Is Hemmed In
Three revolutionary armies are surrounding the city and Castro is completely at their mercy. The U. S. gunboat Marietta is in the harbor and will take Castro off if he wishes it. He has also a Venezuelan vessel lying in readiness.

WILSON SENTENCED, WAS NOT CAUGHT

Young Ohioan Sentenced to Death in Nicaragua, Was Never Captured.

Washington, Aug. 15.—(Special.)—The mystery in the case of Dr. Russell Wilson, a physician of Milan, O., whose sentence of death for alleged participation in a revolutionary movement was recently commuted by President Zelaya of Nicaragua, was cleared up in an official report which the state department received today from Consul Gottschalk at Bluefields.

Wilson was not captured, and if condemned he was not present at the trial.

Asks Aid
Mr. Gottschalk says that July 30 he received a telegram from a brother of Wilson, residing in Ohio, asking him to do all he could to prevent the young man's execution. To this the consul responded immediately that Wilson had not been arrested and was not at Bluefields. He sent the same telegram to the state department.

Neither dispatch was delivered, and in the belief that Wilson was under arrest and about to be executed the department increased its efforts in his behalf, principally through Senator Cushman, the Nicaraguan minister to Washington, who finally warmed the heart of President Zelaya into granting a commutation "out of sympathy for Wilson's mother and friendship for the United States."

Did Not Land
Consul Gottschalk explains that Wilson was a member of the Colombian military expedition which appeared off Bluefields, but was not among those who landed there and were captured. He remained on board of a Colombian gunboat, which ascertaining the fate of the landing party, steamed away. The state department has been unable to get any trace of the telegrams filed by Mr. Gottschalk at Bluefields, July 30.

BLACK FIEND IN DANE COUNTY

Farmers Threaten to Lynch Him if They Capture Him.

(Special To The Gazette.) Madison, Wis., Aug. 15.—The sheriff's posse is still scouring the country in search of the negro, Wm. Carter, who assaulted Miss Anna Zimmerman in a farm house near Dane twelve miles north of this city last evening, but have not found him yet. It is believed that he is hiding in the neighborhood as a horse and buggy which he owned has been found. Miss Zimmerman, who is a maiden lady of about forty, lived with her father and brother on the farm. She was alone when the negro came to the house about eight o'clock last evening and committed the assault, an hour later the father and brother found her unconscious. Dr. Odewer, of Dane, was summoned, and while he and young Zimmerman were there Carter returned three hours after his crime and asked if anything was wrong. Both men were afraid of him and said there was not. The doctor invited him to ride with him to Dane intending to turn him over to the police, but the negro refused and was allowed to go. Then no trace of him has been found. Sheriff Burmeister and three deputies and a posse of citizens headed by G. A. Meek of Dane are after Carter. Threats are freely made that he will be lynched if found.

BUYS THE CORBIN STOCK FARM

A. A. Houseman Purchases the Valuable Property for the Sum of \$250,000.

New York, Aug. 15.—(Special.)—A. A. Houseman is reported to have purchased for \$250,000 the Austin Corbin stock farm, forest preserves, and residence at Babylon, L. I. The property contains about 1,000 acres and its original purchase, together with improvements, cost Mr. Corbin about \$1,000,000. There are six ponds on the estate, all of which are well stocked with trout and other fish. There is a forest preserve of between 600 and 700 acres in which quail, partridges, pheasants, and other game abound. Mr. Houseman is the owner of the champion prize winners, Royal Flush, Royal Swell, and Kitty Cloon, and he has in preparation for prize contests in the coming horse show Sunlight and Starlight.

Miners Still Dissatisfied, and Liable To Break Loose Any Time.

SOLDIERS COMING

Coal and Iron Police Are Still Locked Up in Jail.

TROUBLE IN BREWING

(Special By Scripps-McLae.) Durvea, Pa., Aug. 15.—An ominous quiet rests over Durvea and the citizens are all on edge in expectation of some trouble. The miners are not to be seen on the streets but grim and determined men are to be found talking in undertones on many of the side streets.

No Trouble Expected
Thus far this morning the police and city officials claim that all will be quiet and that there will be no repetition of yesterday's fighting. Armed deputies are being kept in readiness, however for any emergencies.

Troops Coming
The washery has not been started this morning and will not be until the troops arrive. The coal and iron police are still in jail and a force of deputies are watching the company's property.

BAD BOYS WHIPPED IN COURT

Janitor Wields Rawhide on Twins in Obedience to a Judge.

West Superior, Wis., Aug. 15.—"Twenty lashes across the back" is the sentence imposed by Judge Calley in the municipal court on two boys, 13 years of age, who were accused of burglary. The boys are Robert and John Scott, sons of a prominent family. It was alleged that they had committed a large number of burglaries during the summer. Judge Calley gave the prisoners the option of a reform school sentence or a cow-hiding and they chose the latter. The sentence of the court was carried out, a janitor wielding the rawhide. The father of the boys was once mayor of Superior.

DOG DEVOURS DIAMOND RINGS

Animal Belonging to Wife of New York Banker Swallows Gems.

Greenwich, Conn., Aug. 15.—The value of the English bulldog Sport, owned by Mrs. Martha Mills, wife of the president of the Plaza bank of New York, is not known, although it is conceded that he is worth at least \$1,000 more than he was. Mrs. Mills went in bathing, and before doing so took off three diamond rings and laid them on the dresser in her room. She locked the dog in the room. When she returned an hour after she missed the rings. Sport was curled up on the bed and appeared to be breathing hard.

ANTHRAX SCARE AT LA CROSSE

DR. ROBERTS TALKS ABOUT THE
DREADFUL SCOURGE.

IT APPEARED SOME YEARS AGO

Farmers Were Careless in the Bur-
ial and Care of Their
Dead Cattle.

The members of the LaCrosse Golf and Country Club have been having a hard time of late on account of the prevalence of anthrax among the cattle in the vicinity of their links. A great many head of cattle belonging to people residing near the golf grounds were taken suddenly sick and died shortly afterward. Most of the cattle belonged to people that operated small milk routes and were dependent on them for a living. They do not know that the cattle were stricken with anthrax and some person started the story that the golf club had been putting out poisoned oats to kill the gophers on their grounds, and the poison had spread over the surrounding country and was killing the cattle.

After the Club
For this reason the whole country about the LaCrosse club's grounds were up in arms and it was all a gopher's life was worth to be caught on the links, until Dr. Roberts told the owners of the cattle what was wrong.

Dr. Roberts' Story
Dr. Roberts was in the city yesterday for a short time and returned to LaCrosse last night. Before leaving LaCrosse, Dr. Roberts secured some samples of the earth a short distance from where a farmer had buried a cow that had died a few weeks ago of anthrax. Also samples of earth quite a distance away and samples of the water in a pasture 200 rods away from the dead cow.

All of these samples he submitted to Dr. Russell, the state bacteriologist for examination.

Alive With Bacteria
Dr. Russell reported that the samples were literally alive with anthrax bacteria and that the germs must be scattered all over the country about this farm.

Peter Fleury, who owns the pasture adjoining the Potrocks farm lost a horse on Wednesday from the disease. August Bentz, the LaCrosse city scavenger, hauled away twelve of the diseased cattle to his slaughter house and skinned them.

Building Saturated
Dr. Roberts found that the building was so thoroughly saturated with the disease, that the only thing to do with it was to destroy it, and he is in LaCrosse today for that purpose. Anthrax germs have been known to live for twenty years and spread the disease at the end of that time. So far about forty head of cattle have been killed and a large number vaccinated.

The facts concerning the origin and spread of the disease in this vicinity are as follows:
Four years ago Potrocks' farm was visited by an epidemic of a strange character which swept away nearly his entire possessions of live stock consisting of three cows, three calves, seven hogs and a horse. Veterinary Holmes of this city and the then state veterinarian attended the stock and ordered the farmer not to "pasture any stock on the place for three years. It is now supposed that it was an outbreak of anthrax and that the germs had been working there ever since.

Traced Case Up To Date
The later facts corroborate this theory. Three weeks ago Potrocks' animal died. He had it buried in a dry run that had its origin on the top of a hill and the course of which leads directly to the Miller pasture, where it spreads out, washing the whole surface of the grazing land. The exact date of the Potrocks animal's death was July 21. Just eight days later, on the 29th, there was a heavy rain, and five days later still, or on the 3rd of August, the first fatality from the disease in the Miller pasture occurred. The Feller cow, it was learned had drunk from the ditch during a freshet.

From one to more fatalities are reported to have occurred on the Stray farm, which adjoins the Castle and Potrocks farms. It is on the back slope of the bluff, but it is learned that its probable origin was the burial there of an animal lost from anthrax by a neighbor.

Detective Work
Dr. Roberts had to do considerable detective work to locate the disease at the Potrocks farm as Potrocks and the other members of the family denied that there had been any disease about the place. Finally, however, he succeeded in cornering them and secured the information that he was after. The work of stamping out the disease will be carried on vigorously.

SALVATION ARMY AIDED BY BRIGADE

Major Glen's Assistants Remain in
Janesville to Conduct Last
Evening's Meeting.

Although Major Glen had planned to be here two evenings to lead the meetings of the Salvation Army, with the assistance of his brigade, he later changed his plans and departed after the first night's stereopticon lecture. In his stead he left three members of his brigade who had charge of the meeting in the Salvation Army hall last evening, and who also assisted in the open air services. Captain Ivey acted as the leader and he as well as the two others who remained helped in the music of the evening with their instruments. Major Glen went with the remainder of his brigade to Broadhead, whence he will go to Delavan.

BETTER HARMONY BY IMPERIAL BAND

Last Evening's Concert on Corn Ex-
change Square Was the Best
of the Season.

Thursday evening's band concert showed a decided improvement in the grade of ensemble playing furnished. The Imperials have given abundant proof throughout their series of weekly concerts that the standard of the individual players is of less importance than the actual playing together, and while there are several men in the number who are musicians above the average, through this carelessness in regard to practice the band have fallen far short of the mark they might have attained.

The work of last evening was, however, better than that of past weeks and gives promise of still better things before the summer is over. The entire afternoon's playing at the Catholic races had evidently done the band no harm, and the entire program was given in a pleasing manner. Several of the numbers on the program were far from simple and under Leader Al. Kneff's direction they were rendered in a way that was very creditable. The streets were well lined with listeners throughout the concert.

WEEKLY CROP BULLETIN

General Remarks: The weather of the past week has been exceptionally favorable for the completion of the general harvest of winter grains and the favorable progress in the cutting of spring wheat and oats. The general tone of reports show that the yield of threshed grain is very good; wheat rye and barley exceptionally good, oats a heavy yield but slightly inferior in quality. The grain during the week dried rapidly and farmers threshed directly from the shock, and the loss will not be as great as was expected. Threshing from the stack has now begun. Although corn is making rapid progress it needs more hot weather and rain; pastures in some sections also need moisture.

Temperature: The temperature for the past week has been remarkably low for the season, the average falling about 5 degrees lower than the preceding week; the nights being unusually cool, making it unfavorable for the rapid advancement of corn.

Precipitation: Very little rain has fallen this period; some sections have had no rain for ten days, the northern section being deficient. Fall on the 7th did some damage in Pierce and Calumet counties.

Corn: The corn has made a gradual and healthy advancement in the southern and middle sections of the state; the stand is good and the ears in some sections have reached the edible stage; the northern counties, however, need rain and higher temperatures. Some new fields were damaged by hail to some extent.

Winter Wheat and Rye: Threshing is in progress and the yield is very good, some reports show exceptionally heavy yields and the grain of a fine quality. The straw is unusually heavy and good.

Oats and Barley: The oat harvest is nearly completed; the crop was much tangled and lodged, causing some material loss. Some threshing has been done showing the yield generally good but quality somewhat inferior and the straw considerably rusted.

Spring Wheat: The bulk has been harvested, and some stacked, the straw is rank, but in some instances the heads are small; on the whole it is promising.

Hay: The second crop of clover is very heavy and in excellent condition; the ground is too wet for cutting. Marsh hay has begun, but the ground is too heavy for progress. Alsike clover is being hauled from the fields, the yield is good; pastures generally fair, but some need rain badly.

Potatoes continue to improve; they are of fine quality, and largest crop for years is expected. Bugs continue destructive and some complaint of rot is made, but nothing serious.

Tobacco shows a general, thrifty growth, of fine quality, and the largest crop of years is expected. Some has been cut.

Northern Section
Glenns, Ashland county: Oats are ripening fast; potatoes improving; Keno.

Merrill, Lincoln county: Winter grain cut and some stacking done, haying all finished; corn doing nicely, but needs 3 or 4 weeks of warm weather to clear it from frost; early potatoes a large yield.—M. W. Brand.

Pembine, Marinette county: Oats being harvested, with fair crop; corn very uneven and late; potatoes ripening fast, and will be a light crop; blueberries plentiful.—J. Lundgren.

Shetek, Barron county: Potatoes need rain; pastures drying up; small grain cut.—O. H. Hanson.

Southern Section
Dunbarton, Lafayette county: All cutting is completed; oats appear light with long, rank straw; corn doing well but very weedy; potatoes fair.—F. Blackburn.

Monroe, Green county: Small grain about all harvested and threshing well advanced; early potatoes ripe and of good quality; pastures continue good but yield of milk suffers from fly pests. Hay has been an abundant crop.—J. Luchinsinger.

Caldwell, Racine county: Grain all cut and half stacked and the largest crop for years has been threshed; corn making fine growth; potatoes heavy crop.—Delbert Utter.

Marshall, Dane county: Grain all cut and some stacking done; early potatoes fine; pastures good; tobacco making fine progress; shedding will commence soon.—W. H. Porter.

Franksville, Racine county: Grain cutting completed and crop exceptionally heavy; some haying yet to be done; corn looking fine; potatoes indicate a good crop.—J. O. Thomas.

FRANK DUNTON ASKS FOR AID

THE FORMER JANESVILLE MAN
WRITES HE NEEDS HELP.

HE IS LIVING IN CHICAGO

A Piteful Letter from the Former
Turf Authority, Tells a
Story.

In actual suffering for his daily necessities and writing begging letters for financial aid to friends of his former days, Frank Dunton, once editor of the Spirit of the Turf, lives at 3, 623 Ellis Park, Chicago. From a position of authority on all turf matters, with servants and plenty of money, this broken down man, decrepit with age and worry is eking out as good an existence as he can.

One Frank Dunton was a wealthy man. He owned his paper, the Spirit of the Turf and had a loving wife and an affectionate adopted daughter. He was well thought of by his acquaintances and it was his to command. He had all right and happy old age to look forward to and the world smiled upon him.

First Disaster

His first great disaster came in 1892 the year before the World's Fair. He and his wife lived together on the South Side, Chicago. Mr. Dunton had money and his wife was also well off in worldly goods. They were happy together and they looked forward to the autumn of life as a pleasant dream. Their adopted daughter was married to a son of Doremus Scudder, the celebrated missionary and her future was assured.

Mr. Dunton left Chicago on a brief business trip. He kissed his wife good-bye and left her watching him from the doorway. The next morning she was found in the bathroom of their little home, a crushed mass of humanity. Her death had been most horrible and her murderer had taken no pains to make her sufferings less. She had been dead for hours before she was found by the neighbors who came to call.

Son-in-Law Arrested
Her adopted daughter's husband, Harry Scudder, was accused of the crime. Evidence pointed to the fact that he had murdered his mother-in-law in hopes of inheriting her money, through his wife. He was arrested and placed in jail. He protested his innocence to no avail and was held for trial.

A few days before he was to appear at the bar of justice he committed suicide in his cell and the finger of guilt has always pointed at him.

His wife died a few years afterwards and left Mr. Dunton alone, a broken hearted man.

Married Again
Later he married a California lady, but misfortune overtook him and he lost his all. Too proud to beg, too old and weak to work he suffered in silence for a year and at last broke the silence to ask friends of his former days to come to his aid.

Early in his life he married for his first wife Miss Elizabeth Parker of Janesville. She was a daughter of Isaac Parker, a prominent man in the early days of Wisconsin and one who left her and his heirs much wealth. She left a sister, Miss Parker, who still lives in Janesville and several cousins. Since their relative's sad death they have asked Mr. Dunton to come to them, but he refused. He came to Janesville and buried the bride of his youth, but has not returned there since.

Letter of Appeal
His letter of appeal for aid is a sad one. It is addressed to the editor of the Gazette.

My Dear Sir:—Perhaps I can make you understand who I am, when I tell you that Janesville is dear to me because I used to call it my home, and it contains people whom I called my friends. And besides that the body of my wife, my dear wife, lies buried there in your cemetery. My family, my wealth and my fortune were all swept away, as a cyclone sweeps a fertile field and leaves it desolate. I am an old man, am unable to work, an invalid.

Can you not make a call through your paper that would bring my old friends to my aid as I am in great need or I would not make this request to you as a brother journalist. I am full in the faith that God will reward you for well-doing.

Lovingly and truly yours,
FRANK H. DUNTON.
Am in dire need.

MR. BLABON LEAVES
Returns To Philadelphia After Several
Months in Charge Here

Walter Blabon, who has been here for some time in charge of the Janesville street railway, left for home today. He has made a number of improvements in the road during his stay here, so that the line is now in pretty fair shape. William Murphy who has been in the employ of the company for several years will have charge of the road in the future.

Globe Chautauqua At Freeport

Freeport will have its first Chautauqua in the beautiful Globe Park, August 17, 18, 19, 20, 21, 22, 23, 24. It seems to the visitor at Globe Park that nature tried to outdo itself in making one of the most beautiful spots on the globe. Every kind of tree known in Illinois grows in its natural state in this park, and Indian mounds, caves and bluffs galore; black walnut, butternut, shellbark hickory and many other groves; a lake over a mile long on which the boats and launches ply back and forth continually; good fishing; a large tabernacle, rustic benches, foot and carriage bridges and a large iron bridge spanning the river just below the falls. All and much more within the ninety acres of beautiful Globe Park.

There will be exercises of one hour every afternoon, commencing at 3 o'clock, which will include a lecture or address by some of America's best orators. Many concerts by the Knights of the Globe and other bands during the day. Ten wagons of rare animals will be on exhibition daily, free.

ROCK COUN- 'S ANNUAL FAIR

It Will Be Held at Evansville Dur-
ing the First Week in
September.

The fourth annual fair of the Rock County Agricultural Association will be held at Evansville, Wisconsin on Sept. 2, 3, 4, and 5, 1902. The president W. E. Campbell and the other officers have spared no efforts to make the fair a genuine success.

They have secured the best kinds of attractions, that money can procure for each day.

Tuesday, the first day, is Children's Day and all the attractions for the day will be prepared especially for the children such as pony races etc. Children fourteen years and under will be admitted free that day.

Wednesday, at 10:30 a. m. Miss Marie C. Brehm, of Chicago, a noted lady orator, will speak from the front of the grand stand.

Every day a first class band will be in attendance and furnish good music. Every afternoon will be filled with best races that liberal purses can afford as \$2000 been put up as purse money, and that cannot but help attract the horseman.

The following is the entire race program.

Tuesday
1/2 mile running race \$100.00
1/4 mile shetland pony race 10.00
Special race purse 100.00

Wednesday
2:50 Trot purse \$250.00

CATCHY MUSIC BY TALENTED COONS

Trio of Negroes Have the Power to
Charm Small Change from
Willing Pockets.

During the summer a number of itinerant negro slingers have been in the city with mandolins, guitars, and voices of various degrees of perfection, but none have come to Janesville who could compare in ability with the latest aggregation that have drifted here on their way over the state. This band of musicians style themselves the Clover Leaf Trio and their work is of especially high grade. The members of the trio are R. Ford, F. Wise, and J. S. Crabbe.

Wise manipulates a guitar and a set of go-go eyes at the same time, besides doing some very clever work with his mouth. His voice is a tenor that blends admirably with the others, and is very effective in solo work. Ford plays the mandolin and sings, and Crabbe helps out the trio vocally, and with a megaphone. His method of using the megaphone is novel, and adds very greatly to the success of the team. With this instrument he hums bass accompaniments to the others in an astonishingly harmonious fashion. Sake it all in all, the three work together in a way that invariably makes good when the hat is passed.

Joilet is the address which the gentlemen give as their home; and they are extremely indignant whenever any one remarks, and everyone does so, that it is a pity they escaped. They have been singing together for three weeks and have a complete schedule made out for the next month. They plan to leave here Saturday or Sunday going to Beloit where they have a week's engagement at "Schmauss's", and from that place they work their way north stopping at the Dells for several days.

SMALL MINDS.

The smallness, the extreme shallowness of the minds of some of the editorial writers in the state is appalling. Two papers have made most virulent attacks on the fair name of Wisconsin, through its chosen son United States Senator John C. Spooner, since the opening gun of the present campaign. Before the state convention they were nicer about it but after they had felt their oats they sprang into prominence and throwing aside the mask, showed the sharp claws that had been concealed beneath the fur during the whole year. From pigmy baby lions they have grown into full-grown ones at once and they spared no means to allow the public to know they were the dominant spirit of the party they claimed to represent.

One thing after another they have written and said in the hopes of inducing Senator Spooner to some rash act in his anger. But Spooner has ignored them and the scorn of the politicians at large points the finger of derision at them for using such petty and scurilous tricks to try and belittle so great a man as Spooner. Thus far their efforts have been in vain and they have been forced to sit back and see the chosen son of Wisconsin endorsed by every assembly district convention whose men who are pledged to elect to vote for John C. Spooner for the United States Senator unqualifiedly.

In view of this fact one would think that the public sentiment would prove enough of a bar to the continuance of such practices but not so. After using all the excuses and arguments against Spooner in vain, they now try to belittle him in the eyes of the voters of the state by claiming he should come home to Wisconsin instead of staying away from the state that has given him greatness and the state which has gained new honors by his glorious actions in the senate.

The smallness of this last baby cry of the element that are trying to down him is pitiful. Some day the people of the state will rise up in indignant wrath and wipe such petty petifoggery ideas and after a clean sweep of the state will start all over again with the "schism" and "isms" all done away with. Such actions disgust the voters and do not do the party as a party any good.

Harmony marked the First Assembly district convention held yesterday. Factional lines were obliterated and the simple problem of electing an assembly delegation that would favor the return of Senator John C. Spooner was all that was asked for. Mr. Alexander White the man who was placed in nomination by an unanimous vote is one of those men who have a mind of their own. He is well able to take the responsibility that is given him by the people of the first district and will be one of the steadfast supporters of the senator in his contest for re-election.

The Milwaukee Free Press takes Senator Spooner to task for not coming home to Wisconsin more often and becoming acquainted with his constituents. Perhaps it would be a good thing if the Free Press editorial writer went out among the people and found out what the general sentiment is regarding the paper's virulent attacks on the Senator.

Old minister Wu was entertained by his New York fellow countrymen at a banquet that cost twenty five dollars a plate. My but they had nice things. Rat tailed soup and nice pie. Old Wu was glad he was there you may be sure after that awful American cookery.

Senor Castro, president of Venezuela is making all his plans to flee from that country as soon as he can arrange matters. He does not want to have his head chopped off by any victorious general who may win out.

The third district held a convention yesterday that was filled with

strife and petty bickerings. There was trouble from the start and aided by the towns of Clinton and Plymouth the opposition was able to do as it wished in the convention. Their word was law.

Cold weather in August is not unusual but when it is as cold as it has been for the past five days it is time to see if the weather man has not gone to sleep and some know nothing is running things to suit himself.

The Opera Bouffé navy of Hayti attempted to blockade ports of that little island and found that it did not have a boat big enough to stop one good sized tug from New York from going in if it wanted to. So abandoned the idea.

Senator McMillan's death is a direct loss to the republican party throughout the country. He was a brainy, conservative man and while he did not say much he was on deck when it came to a vital vote.

President Roosevelt still stays at Oyster Bay and his coteries of newspaper reporters still stay too. As long as they are there we will know whether the president goes fishing or takes a walk and that is so much of a relief to the overworked reader.

Cattle raising is to be tried in the stump lands of Wisconsin. If it succeeds Wisconsin may yet become famous for its fine beef as it is for its butter and cheese.

PRESS COMMENT.

Madison Democrat: However, the man has not been born who will succeed in establishing a corner on wild oats.

Sheboygan Journal: The impression is gaining ground that General Bragg wasn't so far astray, only he shouldn't have talked so loud.

Evening Wisconsin: The stranger in America trying to learn the language, might remark, "I comprehend Est. ees call 'hard coal,' because ees ees hard to get."

La Crosse Chronicle: With a machine that picks potato bugs there is hope that eventually there will be a contrivance that will kill a mosquito on the wing before he lights.

Oshkosh Northwestern: "Taking their corsets off" is the latest description of husking green corn, and of course it is ascribed to the city girl who is rusticating with her country cousins.

Racine Journal: What does the New York Sun mean by saying it is glad to see Wisconsin joining in with the rest of the country in desiring John C. Spooner returned? All Wisconsin joined in long ago.

Milwaukee Sentinel: Congressman J. H. Davidson appears to have had considerable more difficulty in bringing about a settlement of the Oshkosh squabble than he did in capturing a renomination for congress.

New York Telegram: The petrified ship beyond the Yukon may be the ark, or may simply show that attempts to lift what is now the American's cup have been made ever since the stone age.

Oshkosh Northwestern: It is stated that about 1,000,000 pounds of Wisconsin cheese were handled in Milwaukee last year, which shows that the diet of the people there is not confined entirely to beer and pretzels.

Milwaukee Wisconsin: Democratic anticipations of advantage from dissension in the republican camp are not as bright as they were. Indeed, it is now generally conceded that no democrat will have any show for election to a state office in Wisconsin this year.

St. Louis Globe-Democrat: Does Bryan consider Stonewall Jackson a general whose career was blood-thirsty and marked by moral deformity? Jackson was a soldier who, in the language of President Roosevelt, was "not only willing to fight, but anxious to fight."

Milwaukee News: The New York Sun in a column and a half editorial on Governor La Follette, concludes its discussion of "Bob" by asking: "Will he last?" That depends perhaps upon whether or not the democrats make paramount the declaration that "this standing up and dying for principle is all d-d rot."

Fond du Lac Commonwealth: Thus far every republican county convention and every senatorial and assembly district convention held in this state since the Madison event was perpetrated has passed resolutions endorsing Senator Spooner for re-election unconditionally.

Madison Journal: The Milwaukee Free Press is worried because senate and assembly nominations are being made, the candidates instructed for Spooner, but with little or nothing said as to La Follette's reforms. We

fear that when the senatorial conspiracy was hatched unwittingly there were some graves dug for reforms. Deception is a hopeless labyrinth.

Milwaukee Free Press: Dr. Usher now qualifies his "important" communications to the public. "This is the sort of a statement that I cannot prove," he adds. Considering the "important" news which he has had subsequently to admit was untrue and remembering the contradictions which his paper has to print of other inventions of his this qualification appeared to be wise.

Eau Claire Leader: The country needs Senator Spooner in the halls of congress as a legislator. It does not want him in the supreme bench or the president's cabinet. It wants him exactly where he is and it is hoped that the electors of Wisconsin will rise to the dignity of the occasion and see that his return is made safe and sure. It would be a disgrace to the state should Mr. Spooner be defeated.

Racine Journal: The reply of General Winkler to the last letter of General Bryant is written in the same dispassionate and judicial manner and he insists he is not answered as to the duty of Republicans in case they are unable to accept the full text of the platform. The gist of this reply is that to fully accept the position assumed by General Bryant would be to deprive the legislature of its functions, having no further duty than perfunctorily registering the decrees of a convention.

Fond du Lac Reporter: The republican papers are having considerable fun with themselves telling one day that William J. Bryan will be a candidate for president on the democratic ticket for 1904, and the next day denying it. It isn't troubling the democratic papers to any extent—they are all pronounced in saying that William Bryan has had his day as a candidate for president on the democratic ticket.

IN THE VALLEY OF THE SHADOW

Ole Guilek
Ole Guilek died at his sister's home, Mrs. S. Engen, Town of Primrose, Dane county, Wis., Monday morning, August 11th 1902 and was brought to his adopted son's home, on Wednesday, from where he was buried on Thursday and interred in the Luther Valley cemetery, Rev. J. A. Bergh, officiating. Ole Guilek was born in Numedal, Norway, June 6th, 1825. He immigrated to America with his parents, two brothers and two sisters in 1841 and settled in Rock county. He lived on a farm in the town of New Ark two years. In 1844 he bought and settled on a farm one-half mile east of Orfordville in the town of Plymouth. In 1848 he was married to Live Espelet, who died in 1892. They had no children of their own but in 1864 adopted K. N. Grunhuvd, who is well-known in Rock county politics, and who bought his farm at his wife's death.

Ole Guilek has been in feeble health since 1887. He was well-known to the older settlers of Rock county and took an active part in politics, always a republican, since the birth of that party, prior to which he was a whig. He was a liberal contributor to both church and school and a good adviser in his neighborhood.

Mrs. Charles O. Lawton.
Rock county friends of Mrs. Charles O. Lawton, for many years a resident of Spring Valley, will be painfully surprised to learn of her death which occurred quite suddenly at her home in Broadhead on the second of the month, Mrs. Lawton having been ill only a few days.

Mrs. Lawton's maiden name was Tina Agnes Oliver and she was the only child of Mr. and Mrs. James B. Oliver. She was born in Spring Valley thirty three years ago and grew to womanhood there. Twelve years ago she became the wife of Charles O. Lawton and remained in Spring Valley until six years ago when, they removed to Portland, Ia., returning to Wisconsin two years later and settling at Broadhead.

Mrs. Lawton was very prominent in church and society circles and the funeral was one of the largest ever held in Broadhead. Services were conducted by Rev. Z. W. Commerford and members of Bell camp, Royal Neighbors of America took charge of the service at the grave. Among those present at the funeral were Mrs. Robert Alris, Mrs. John Alris and Mrs. James Shearer of this city.

Harry Frusher
Harry Frusher, a former resident of Rock county, died at the home of his uncle in Riverside, Ness county, Kansas on the eighth of this month. He had been in ill health for some time and on this account he made his home with his brother William.

HEMINGWAY IS ONLY CANDIDATE

FIRST DISTRICT NOMINATES CHAS. HEMMINGWAY SCHOOL SUP'T.

BUT FEW DELEGATES PRESENT

Little Interest Shown in the Selection, and But One Candidate Seeks Election.

The first superintendent district convention was called to order at 2 o'clock by District Attorney Jackson, secretary of the Republican county committee, who presided in the absence of Chairman T. S. Nolan. Mr. Jackson read the call stating that the convention was called for the nomination of a school superintendent in the first district on the republican ticket. On motion of L. E. Gettle F. B. Smiley was elected chairman and H. F. Kilgus, secretary. Also that the report of the county committee on credentials be accepted, and the delegates present were instructed to cast the full vote of the town, village, or precinct, represented by them.

F. B. Smiley in behalf of the town of Plymouth in a short speech presented the name of Charles H. Hemmingway. H. F. Kilgus in seconding the nomination, made a short address on the importance of the office of county superintendent. He compared this convention with other conventions and explored the small attendance, as he considered this convention one of the first importance. He also compared the office of superintendent of schools in the county with that of the city superintendents. The salary of the two offices showed that the city superintendents received larger compensations than the county superintendents and that the county superintendents had less teachers to look after. The county schools should receive more work and less salary and a salary in keeping with the work should be paid county superintendent. On motion of L. E. Gettle the secretary was instructed to cast the ballot of the convention for Charles H. Hemmingway. Mr. Hemmingway was called for and made a short speech of acceptance.

He accepted the nomination and stated that if he was elected next November he would give his best efforts to carrying out the work that had been so well started by Supt. Ross. There being no further business the convention adjourned.

EXCELLENT CARD AT RACE MEET

POSTPONEMENT HAD AN EFFECT ON THE ATTENDANCE.

MANY LADIES WERE PRESENT

The Church Booths Liberally Patronized by the Crowd—Good Races.

Had it not been for the enforced postponement of the St. Mary's church races which were to have taken place Wednesday afternoon and were held over until Thursday there would undoubtedly have been an audience in attendance mounting well up toward two thousand. As it was, though the track was in the finest condition for fast events the sky was so unpromising that only about seven hundred ventured out.

Four of the six races scheduled were run, the two remaining ones being declared off. Those that remained on the program were fast and fairly interesting heats, but through some mismanagement the horses were brought so slowly that it was tedious waiting for the grand stand. It was after six o'clock before the decision was given in the last of the eleven heats run, and in one case the delay between the events amounted to nearly an hour.

Ladies Manage Booths
The ladies of the church were out in full force, and one half of the persons on the grounds were women. Three booths were managed by the ladies, and were as successful as could have been hoped under the circumstances. The young ladies of the church operated a booth where an envelope containing a number was sold for twenty-five cents. A prize corresponding to its numbered tag to the figure drawn was then delivered to the purchaser. Among the articles which were sold in this way were vases, a bottle of pocket, a lady's collar, five pounds of beef and several picture frames.

Another booth where refreshments were served was managed by the married women of the church, and the girls had a third where candy, pop and cigars were on sale. The fair proprietors of this stand were not in the least afraid to hustle and got out in the audience, carrying boxes of cigars which they offered to everyone they met, and urged the purchase so insistently it was a stony hearted individual who could refuse.

The 2:25 trot between Lady B. and Red Rover was about the closest event of the day and there was some hesitation as to the way that the decision was to go, owing to a misunderstanding of the terms of the race. The final agreement was that a mile heat should be run, to be timed only to the half, finishing as they chose. In the free-for-all pace, Aunt Laura won three straight heats over Ira S. in one of them lowering her record of 2:16 by three-fourths of a second.

BIG CROWD TO GO TO WHITEFISH BAY

Excursion Under the Auspices of the Janesville Machine Company Tomorrow.

The special train for the Janesville Machine Co. picnic will leave Janesville tomorrow morning over the St. Paul road at 7:45 and returning leaves Milwaukee at 8 o'clock. It is expected a large number of the season as enough tickets have been sold to insure a large crowd. The excursionists will be given a chance to take a steamboat ride on the lake and also to go to Whitefish Bay.

HORSE GOT TOO NEAR A THRESHER

James Brockaway Loses a Valuable Animal Through an Accident.

Yesterday afternoon James Brockaway drove a pair of horses up close to the separator of a threshing machine outfit that James Bennett was operating on the farm of William Johnson. One of the horses switched his tail which became entangled in the rapidly revolving machinery. Before the outfit could be stopped the horse was so badly cut and bruised that he died a short time afterwards.

CHARMING LADY ARRIVES

Miss Queen Quality The Guest of Amos Rehberg & Co.

Miss Queen Quality, a charming young lady of twenty-six summers, golden hair and blue eyes, arrived in the city on the vestibule last evening and was at once driven to the shoe store of Amos Rehberg & Co. on the bridge. Miss Quality resides in Chicago and is far famed for her beauty. She will remain till after the carnival and will explain to the women of Rock county the merits of the Queen Quality shoe. Miss Quality now occupies a conspicuous place in the shoe windows at Rehberg & Co.'s store.

This evening this popular Chicago miss will be tendered a dancing party by a number of her local admiring friends which will be followed by a banquet.

PLAY ROCKFORD TEAM TODAY

SINNISSIPPI GOLFERS GO TO ILLINOIS CITY FOR MATCH GAME.

TWENTY-FIVE IN THE PARTY

Team Not the Strongest, But the Spirits Were Most Enthusiastic.

About twenty-five members of the Sinissippi Golf club boarded the 8:20 train on the Northwestern this morning bound for Rockford where they will be the guests of the Rockford country club during the day.

It was expected that about forty club members would go to Rockford, but the rainy weather this morning and other things kept several that had planned to make the trip at home. Those who did make the trip were in the best of spirits in anticipation of the good time they were to have.

Those Who Went
Among those who went to Rockford were Messrs and Mesdames C. C. MacLean, H. S. McGiffin, H. G. Carter, J. C. Page, F. S. Taggart, H. M. Pulker, Messrs Elizabeth Schickler, Wilma McGiffin, Messrs. Albert Schaller, O. Sutherland, H. W. McNamara, F. J. Baker, B. Brewer, H. Goldin, Wilson Lane, George Baumann, Charles Schaller, S. D. Tallman and Charles Tallman.

The Players
The players who took part in the match were: Albert Schaller, C. C. MacLean, H. G. Carter, O. Sutherland, H. S. McGiffin, F. J. Baker, Geo. Baumann, S. D. Tallman, H. W. McNamara, B. Brewer, Charles Schaller, Wilson Lane, H. Goldin, J. C. Page and H. M. Pulker.

Team Not Strong
While this is not the strongest team the club could put up it ought to be able to win out at Rockford. The Rockford club has the advantage of being on their own course and having a full list of players to pick from.

Elks Attention: There will be a special meeting of the Elks this evening at 7:30 o'clock. Every member is requested to be present as business of importance is to be transacted.

ILLINOIS CROPS ARE BOUNTIFUL LITTLE DAMAGE DONE TO CORN

Heavy Rains Disastrous to Oats, but In Spite of This the Value of the Product is Placed at Over \$47,000,000.

Springfield, Ill., Aug. 15.—The Illinois department of agriculture has compiled the following statement of the yield and condition of some of the principal crops, the reports having been made on Aug. 1:

The area of wheat harvested this year, 1,774,000 acres, is 55,000 acres less than the 1901 area, but, notwithstanding this deficiency, the 1902 wheat crop exceeds that of last year by 5,476,000 bushels, 36,589,000 bushels having been harvested. The average yield of twenty bushels per acre is the largest ever reported and has been equaled but once, in 1894.

Valuable Wheat Crop.
The ruling price Aug. 1 of 63 cents per bushel is a little higher than last year and makes the crop worth to the producer \$22,907,000, the most valuable wheat crop raised in the state since 1891. About 6 per cent of the area seeded last fall was destroyed, that little being by winter-killing or chinch bugs, which did considerable damage to wheat in southern Illinois.

Rather more rye was planted last fall than for several years past, 114,000 acres being reported. The average yield was twenty bushels per acre and the total yield 2,296,000 bushels. The average price of this grain Aug. 1 was 50 cents per bushel, making the value of the crop \$1,122,000.

Larger Area in Corn.
A larger area was devoted to corn this year than last by 124,000 acres, the area reported being 8,201,000 acres. The Aug. 1 condition of the crop is excellent, 96 per cent of a seasonable average. It was thought a month ago that this crop was seriously damaged by the heavy and long-continued rains of the latter part of June, but the injury was overestimated and the indications now are for a very large crop. In the southern part of the state, where there was not so much rain as farther north, chinch bugs did some damage to the crop, but it is believed it is now beyond danger from this source.

Big Yield of Oats.
The oats area of 1902 amounted to 3,748,000 acres, not quite so large an area as that of last year. The average yield per acre of thirty-eight bushels is considerably above that of 1901. The total yield was 141,435,000 bushels. The heavy rains were very disastrous to this crop, causing it to lodge badly, and a good deal was lost from this cause.

Part of the grain was thrashed while damp and consequently was sold at a low price, but the ruling price of 33 cents per bushel for good grain was the highest price reported in twenty years. The total value of the crop at this price was \$47,378,000, the most valuable crop ever produced in Illinois.

DROUGHT HURTS INDIAN CROPS

Lack of Rain in Bombay Presidency May Cause a Famine.

Bombay, India, Aug. 15.—The agricultural position in the whole of the Bombay presidency is extremely critical. The rainfall has been so deficient that young crops are withering, and unless there should be abundant rain soon the autumn harvests will fall over a wide area. The cotton crop is much impaired. Everything hinges on the progress of the monsoon in the next ten days, but forecasts of the weather are discouraging.

EXPERT SWIMMER IS DROWNED

Seized by Cramps While Giving Exhibition and Sinks.

Mishawaka, Ind., Aug. 15.—John Bishop of Sommers, Wis., came here to marry Miss Alpha Parker. He and his betrothed, together with two other couples, were on a boating party up the St. Joseph river and Bishop attempted to give an exhibition in swimming, being an expert. In three minutes he took cramps and sank within thirty feet of the party.

Pope Summons Cardinals.

Rome, Aug. 15.—The Pope has expressed a desire that all the Cardinals of the Curia be present at the reception on Sunday on the occasion of His Holiness' name day. It is supposed the pontiff will deliver an allocution either on the situation in France or on the Taft mission.

Union Is Renewed.

Vienna, Aug. 15.—It is understood that the questions regarding the act of union between Austria and Hungary were settled by Dr. von Koerber, president of the Austrian Council of Ministers and Minister of the Interior, and Coloman de Seitz, who holds similar positions in Hungary.

Realizing Big Profits.

New York, Aug. 15.—The profits realized by the Monon purchasing syndicate in the sale of the \$7,000,000 worth of bonds jointly guaranteed by the Louisville and Nashville and Southern roads amount to \$302,300.

TWO MEN SHOT BY MINE GUARDS

ARREST COAL AND IRON POLICE

Twenty-Five of the Men Who Did the Shooting Are Arrested and Held in Jail on Charges of Rioting and Felonious Wounding.

Wilkesbarre, Pa., Aug. 15.—Rioting at the Warnke washery at Duryen resulted in the wounding of two men and forced the closing of the plant. Later the coal and iron policemen who fired on the crowd were arrested.

Before 7 o'clock in the morning 500 men and boys collected about the place and threatened to interfere with those who wanted to go to work. Sheriff Jacobs had a number of deputies on the ground and they held the crowd back. The works were started up.

The crowd on the outside throw stones over the stockade at the deputies who were on guard inside. Rather than have any trouble work was suspended for the time being.

Two Are Wounded.

The deputy sheriffs returned to Wilkesbarre, reporting all quiet at the washery when they left. They had hardly reached Wilkesbarre, however, before the guards were attacked. Several men in the mob also attempted to climb over the barricades.

The guards warned them to go back, and when they did not a volley was fired, but most of the bullets went into the air. Harry Collins was shot through the right leg. Andrew Marlack, a Lithuanian, received a flesh wound, and another foreigner had a narrow escape, a bullet passing through his coat.

Constables Save Negro.

A colored man employed at the washery, thinking his life was in danger, escaped from the barricade and ran down the street. He was pursued by an angry mob, who cried "Hang him! Hang him!" The man was finally run down, but before any

harm could befall him a number of constables rescued him.

Deputy sheriffs from Luzerne and Lackawanna counties went to the scene of the rioting, but when they arrived all was quiet, the mob having dispersed. A witness says the attack, the shooting, and the retreat did not last more than five minutes.

Guards Are Blamed.
Warrants were sworn out before the burgess charging the guards with rioting and felonious wounding. The constables went to the washery and placed twenty-five men under arrest.

They were arraigned before Burgess Burlington and held in \$3,000 bail each. They could not furnish bail and were brought to the county jail here.

The United Mine Workers say the shooting was uncalculated and the guards alone are to blame. Vice President Rescavage of the miners' union of district No. 1 says the guards were in an ugly mood all day.

Troops May Be Ordered Out.

PRESIDENT PICKS ISTHMIAN BOARD

WALKER IS STILL CHAIRMAN

Rear Admiral Retains His Present Place, but a Civilian May Succeed Naval Lieutenant Staunton as Secretary of the Commission.

Washington, Aug. 15.—According to reliable information from Oyster Bay the President has decided on the personnel of the commission which will have immediate charge of the construction of the Isthmian canal. The only new member who will be appointed is Senator Jones of Arkansas, who, it will be recalled, threw his vote and influence for the Spooner Panama bill and thereby assured the passage of that measure.

Three members of the present commission will not be reappointed. They are Professor Emory Johnson, Louis M. Haupt and former Senator Samuel Pasco of Florida. All their colleagues the President has decided to reappoint, after the fullest possible consultation with political friends and advisers.

Walker to Remain.

Rear Admiral John G. Walker, chairman of the present commission, will be retained as chairman of the new commission. The President was inclined at first to drop Admiral Walker, but acting on representations by Senators Hanna and Spooner he changed his mind. They said that Walker had done more for the Isthmian canal project than any other man in public life and that to deprive the commission of his services at the inception of actual construction operations would be a serious blunder. The President was persuaded to take this view of the matter and Admiral Walker's retention is now a settled fact.

Hanna Backs Jones.

The other members of the commission who are to be retained are George S. Morrison, the famous engineer; Lieutenant Colonel Oswald H. Ernst of the corps of engineers, U. S. A.; Alfred Noble, Colonel Peter C. Haines, also an army engineer, and W. H. Burr. With the dropping of Pasco, Haupt and Johnson one vacancy was left in the new commission and this will be filled by Senator Jones. Curiously the influence behind his selection came from the Republican leaders of the senate, including Senator Hanna, chairman of the Republican national committee. Jones is chairman of the Democratic national committee.

Secretary May Be Civilian.

The position of secretary with the present commission is filled by Lieutenant Sidney A. Staunton, who first became known to fame as the author of Sampson's celebrated dispatch making a Fourth of July present to the nation of the Spanish fleet destroyed at Santiago. Staunton was Sampson's flag lieutenant. Whether the office of secretary will continue to be filled by a naval officer will depend on circumstances. The chances are, however, that inasmuch as the commission is to be a permanent body a civilian will be selected for the place.

FIND NEW AFRICAN GOLD FIELD

Reef That Rivals the Rand Is Uncovered in the Transvaal.

Johannesburg, Aug. 15.—Considerable excitement has been created here by the discovery of a new gold reef, which is said to traverse a large extent of territory. Local geologists think the strike is a continuation of the Witwatersrand main series, but the discoverers declare that they have found new gold fields that will be the equal in size of the Witwatersrand.

TWO ARE KILLED IN AUTO CRASH

Vehicle Crashes Into Tree, Causing Death of Americans.

Evreux, France, Aug. 15.—Mr. and Mrs. Charles Fair, Americans, who were related to Mrs. W. K. Vanderbilt, Jr., (Miss Virginia Fair) were returning to Paris from Trouville when their automobile swerved and crashed into a tree. Both were killed. The chauffeur became insane as a consequence of the shock.

Ex-Sheriff Kills Himself.

Williamsburg, Ky., Aug. 15.—Ex-Sheriff James L. Sutton committed suicide by jumping from the county bridge into the Cumberland river. Sutton had had attacks of insanity for some time.

Arranges Burial Clothes.

Rome, N. Y., Aug. 15.—With his burial clothes arranged by his own hand, Wesley M. Rich, a well known and retired merchant, died from an overdose of opium taken with suicidal intent.

Kruger Will Not Attend.

Brussels, Aug. 15.—Despite the urgings of friends, former Transvaal President Kruger will not attend the funeral of General Lucas Mayer, the Boer general who died here of heart disease.

WEEKLY MARKET LETTER.

Chicago, Aug. 14.—INJUNCTIONS ASKED; INJUNCTIONS GRANTED: There was more business done in that line by some houses here this week than in the markets, and this delicate matter is of such importance as regards the Board of Trade, in that it attacks the fundamental principles of the Exchange, possibly the very

existence of the organization, and everything depends on its outcome. There should be no question as to what the outcome will be, as we have rules for this very purpose, which makes it obligatory upon every member to live up to them, and the Board of Directors have full jurisdiction. It has always been conceded by the courts and every decision made heretofore has been, that a member of the Board of Trade agrees to abide by the rules when he is elected, consequently disputes as regards business matters must be settled according to the rules of the Exchange, within the Exchange, and the probabilities are when his whole question comes up for a rehearing it will be, at least it should be, thrown out of court. Records will show, even as regards other lines of business, that when any one has asked for an injunction he usually has had no trouble in obtaining it, that is, a temporary injunction, but the records will show that a temporary injunction is usually dissolved when asked to be made permanent or upon a rehearing. The reason for this is that a temporary injunction, granted upon the hearing of one side of the case, or on an ex-parte statement, the supposed intention being to prevent drastic or possibly unfair measures being taken upon the part of the party against which the injunction is granted, thus affording temporary relief or making it possible for everyone to get justice, which they are entitled to; the very fact, however, of but few injunctions being made permanent is an evidence that there is too much laxity in the law, which makes it possible to obtain even a temporary injunction. It is to be regretted that this is a fact for the reason that it upsets business methods, at least for a time, which, however, are invariably righted in the end. The developments or rather the free granting of injunctions during the week against different Board of Trade firms by certain parties, resembles, somewhat, an ordinary suit being brought before the justice of the peace—J. P.—which has often been termed, "judgement for the plaintiff." Naturally a good deal of interest is being taken by the outside speculator, I might say by the bulls, in the outcome of these cases, and so many letters have reached me commenting the same, that I thought I would assure my customers that they can safely depend upon it that the Directors of the Chicago Board of Trade will enforce the rules of the institution to the letter.

The Chicago Board of Trade is an organization composed of a body of men formed for the purpose of creating prices, by buying and selling, making what is called an open market for everybody, the intention in all cases being the delivery of the actual Grain on contracts, when it is desired upon either the part of the buyer or seller; one has the right to demand and the other has the right to insist upon the making of the delivery; it is only when it is agreeable to both when contracts can be settled by the paying of the difference. During the last twenty five years there have been a few cases where parties who ask for and secure injunctions were dissolved, and in every case the Directors of the Board of Trade took action disciplining the parties who ask for and secure the injunctions. Defaulting on contracts is generally deemed a severe violation of the rules. We have no case on record of a bull having refused to take the grain which he had bought on account of the price having been forced to low, either below its value or below the cost of production, either of which it would seem a greater cause than is the case of a short seller who sold something he did not have, neither intended to or could not deliver, or on the argument brought by them now that the price was forced to a level higher than its value. It is generally conceded that board of trade dealings are perfectly legitimate, but promiscuous short selling is an evil which should not be encouraged, and if it does not accomplish its purpose, the short sellers should at least be willing, in fact should be compelled, to take their medicine, just as the bulls had to do.

Evelyn B. Baldwin has begun to plan another trip towards the north in the early autumn.

BROUGHT TO LIGHT.

Janesville People Receiving The Full Benefit.

There have been many cases like the following in Janesville. Everyone relates the experience of people we know. These plain, straight, forward statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

Mr. E. T. Fish, of 355 Racine St., proprietor of the Fish Dry Line, says:

"When I was twenty years of age I fell injured my back, and ever since that I was troubled more or less with a dull aching pain across the loins. It never laid me up but it was often painful and annoying. Of late years I have gone to a physician every six months and had myself thoroughly examined, under the impression that there might be something wrong with my kidneys. The diagnosis always resulting in the physician claiming these organs were sound, but as the pains existed when I happened to notice in our Janesville papers that Doan's Kidney Pills were guaranteed to cure just such troubles I procured a box at the People's Drug Co.'s store, and took them. Doan's Kidney Pills are a good preparation. My back has not ached since I used them. I have heard others speak very complimentary of them and if I did not know their merit and required such a medicine I would consider it a favor if some one suggested their use to me. For this reason I endorse them."

Remember the name, Doan's, and take no other.

Rheumatism

The liniment bottle and flannel strip are familiar objects in nearly every household. They are the weapons that have been used for generations to fight old Rheumatism, and are about as effective in the battle with this giant disease as the blunderbuss of our forefathers would be in modern warfare.

Rheumatism is caused by an acid, sour condition of the blood. It is filled with acid, irritating matter that settles in the joints, muscles and nerves, and liniments and oils nor nothing else applied externally can dislodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood. Rubbing with liniments sometimes relieve temporarily the aches and pains, but these are only symptoms which are liable to return with every change of the weather; the real disease lies deeper, the blood and system are infected. Rheumatism cannot be radically and permanently cured until the blood has been purified, and no remedy does this so thoroughly and promptly as S. S. S. It neutralizes the acids and sends a stream of rich, strong blood to the affected parts, which dissolves and washes out all foreign materials, and the sufferer obtains happy relief from the torturing pains.

S. S. S. contains no potash or other mineral, but is a perfect vegetable blood purifier and most exhilarating tonic. Our physicians will advise, without charge, all who write about their case, and we will send free our special book on Rheumatism and its treatment.

TROUBLE IN RANKS OF BARBERS' UNION

OVER CLOSING ON LABOR DAY

Journeymen Demand That Shops Be Closed All Day—Bosses Think Differently.

There is trouble brewing in this city between the journeymen barbers and the boss barbers concerning labor day.

The journeymen barbers are anxious to have all of the shops closed on Labor day, so that they will have a full day off. The boss barbers are willing that the shops should be closed in the afternoon, but are determined to keep open in the morning.

The controversy reached a point this morning when the journeymen barbers, who are members of the barbers' union declared that they would take the union cards out of every shop where the proprietors insisted on keeping open a part of the day.

The matter will be taken up this evening at a meeting of the union and settled.

WET WEATHER DELAYS WORK

Macadamizing on Milton Avenue is hindered by the Past Rains.

Rainy weather during the past today the teams off from the hauling to lay the teams off from the hauling on the Milton Avenue job. The loads of stone are so heavy and the hill up to the street where the paving is going on is so steep that it is impossible to do the work without overtaxing the horses when the streets are muddy. This has been one of the considerations that has throughout the contract delayed the work very materially.

Delays Work

The delays that have been caused have been so great that once or twice the workmen for the street railway company, who are putting in new ties along the Milton Avenue line wherever the old ones have rotted out or become infirm, have been obliged to stop work and go to some other part of the line where the same work is being done to allow the track repairing to go on. The street railway company have been making repairs throughout the length of their lines, and when it was found necessary for the men to stop work on one stretch of track there has always been another place open.

ELKS DID NOT TEAR DOWN CIRCUS BILLS

Statement to That Effect Was False—The Circus Posters Were Not Disturbed.

Manager Myers says that the circus bill posters were very much off in their statement that the Elks had torn down their bills and put carnival bills in their places. On all the boards controlled by him the circus bills that were put up before the carnival bills are still in place. The circus men made no complaint to him about their bills and now have about two thousand bills up about town. The entire force of bill posters left here last night and will return as soon as the carnival is finished and put up the balance of their bills.

SOUTH CAROLINA CANDIDATES FIGHT

Gentlemen Seeking Seats in the United States Senate Forget Their Dignity.

Gaffney, S. C., Aug. 15.—Congressman A. C. Latimer struck ex-Congressman J. J. Hemphill with his fist in the courthouse as the audience dispersed for dinner. The men are candidates for the United States senate and with three other candidates are stumping the state.

Mr. Latimer, who is a farmer, said: "I want you all to come back and hear me, for these five lawyers have been jumping on one farmer, and I want you to hear my answer."

Hemphill taxed Latimer with misstating the case and added that by speaking after dinner he would infringe on the privileges of the four candidates who were to follow.

Latimer replied warmly that Hemphill was actuated by no motive of kindness toward candidates for congress. Hemphill replied, "That is not true," whereupon Latimer struck him. Before Hemphill could return the blow Latimer was hurried away.

Later Hemphill disavowed using an oath and Latimer stated his regret at having resented what he thought was an oath.
